Pass it on.

A simple guide to printing and sharing The Source Collective cards

The idea

Do one genuine act for someone. Then leave a card, so the next person can pass it on too. No sign-up needed. Everyone is welcome, and everyone benefits.

1. Get the files

Download the free print files from TheSourceCollective.World:

- Business-card size (3.5 × 2 in) and square (3.5 × 3.5 in), front and back
- Ready-to-print sheets (Letter and A4) with cut marks

2. Print them your way

- Online: upload the front and back files to Vistaprint or any online printer.
- Locally: take the files to any print or copy shop near you.
- At home: print a sheet double-sided at 100% (actual size), flip on the long edge, then cut along the marks. Heavier paper or card stock works best.

3. Share them kindly

- Do one genuine act for someone, then leave a card where they will find it.
- At local shops and cafés, ask kindly if you may leave a few cards by the register or on the community board. Always ask first, and respect a "no".
- Never leave cards as litter, on windshields, or anywhere they will blow away.

4. If you found a card

Someone did something genuine for you. Scan the code, then pass it on.
